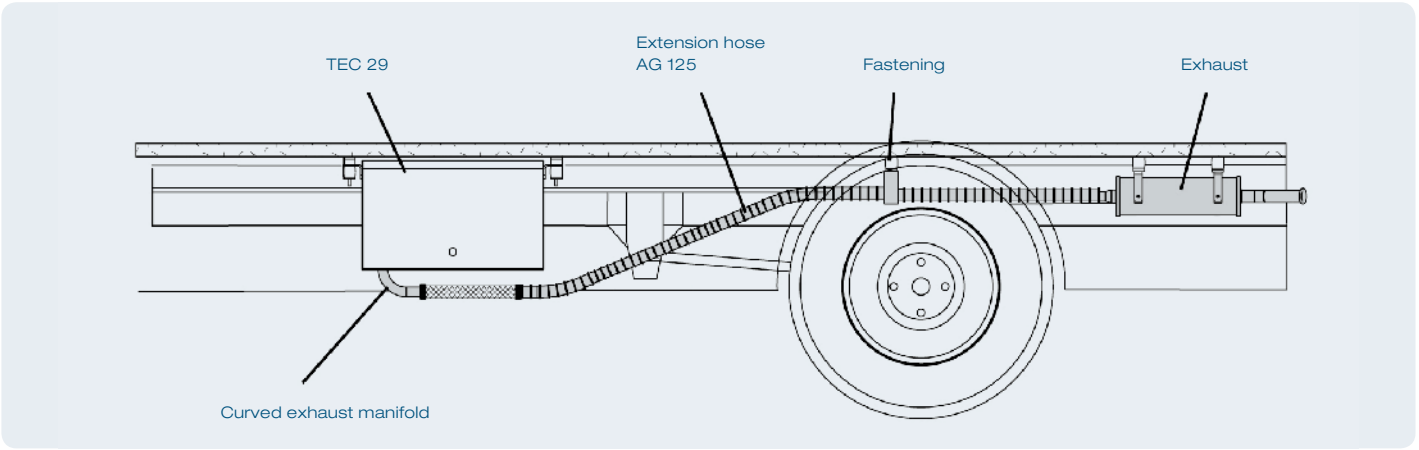
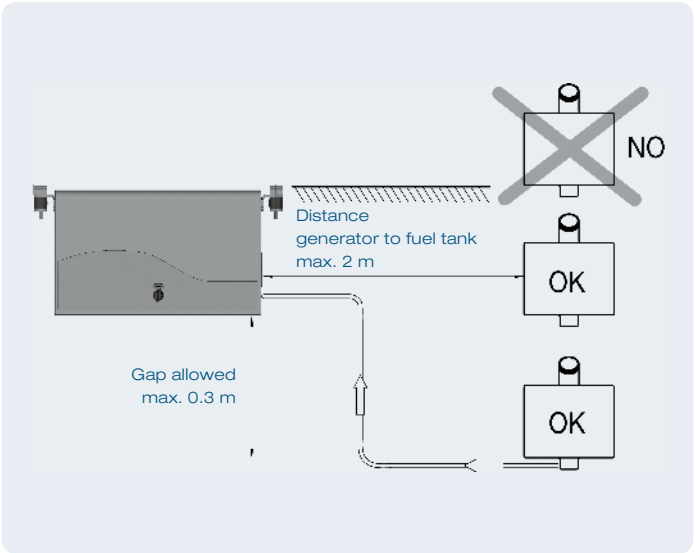
- **Exhaust accessories:**
  exhausts, extension hoses, silencers, fastening clamps, hose clips, etc.
- **Electrical accessories:**
  voltage regulators for battery recharging, cables, change-over relays, etc.
- **Installation accessories:**
  mounting brackets, fasteners, installation kits

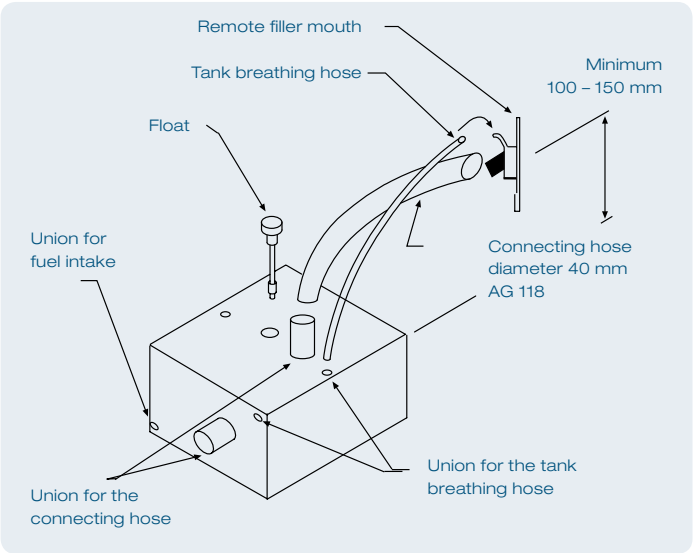
Installation examples for generators



Example of exhaust installation on the TEC 29: Use the flexible metal hose [2 metres come as standard] together with the silencer to mount the exhaust. For further exhaust extension the AG 125 extension hose is available as optional accessory.



TEC 29, T 2500 H, T 4000 H:
recommendations for fuel tank installation



Installation of the AG 101 tank: after installation seal all hose unions with Loctite 577 to prevent fuel leakage.
