Statement regarding class action complaint

In addition to the information disclosed on April 22, 2016, regarding a class action complaint filed against Dometic in the US, the company would like to make the following statement.

On April 21, 2016, a class action complaint was filed in the United States District Court for the Northern District of California. The complaint alleges that Dometic's gas absorption refrigerators are defective. The complaint also alleges that Dometic has failed to remediate the defects and provide adequate warnings or instructions on proper use of its gas absorption refrigerators. The complaint currently includes 5 individual plaintiffs.

Dometic's opinion is that the allegations are without merits and intend to vigorously defend against them.
