Notes

- If recess size is specified the blind will be made X minus 10 mm [3/8"] and Y minus 5mm [1/4"].
- Installation height required for cord operated blinds. EN13120 Standards demand the distance from the floor to the bottom of the pull cord(s) shall be at least 1500 mm [59 1/16"]. and a cord collection device (cleat) is fitted at or above this height. We can only supply blinds meeting these conditions unless the above question has been answered No.
- Cord Loop is supplied with a cord tidy child safety device as standard, please select colour.
- Installation height less cord length must be greater than 1500 mm [59 1/16"].
- Please fill in a Powered Accessories Order Form, download from [here](#).
- Specialist motor please contact manufacturer before ordering.

A selection of simple shapes are available, please contact manufacturer for more details.

Wood Venetian blinds are not suitable in areas of high humidity, toilets, bathrooms or wet rooms. Please consult manufacturer regarding alternative solutions for these areas.
