

PRODUCT INFO

DOMETIC OCEANAIR SKYSCREEN POWERED

The Skyscreen Powered blind for hatch screens has a modular design for convenient versatility. Blind sections can be varied so that, for example, the roller and flyscreen fabrics can be combined within a single blind. It can also be completely concealed into yacht headlining.

 **DOMETIC**

POWERED HATCH SCREEN COMBINATION BLIND

The new Dometic Oceanair Skyscreen Powered combines the ease of control that larger powered blinds offer, whilst sitting discreetly behind your yacht's headlining. Fully adaptable, the Skyscreen Powered allows the modular blinds to be interchanged and can combine both roller fabric and flyscreen within a single blind. The innovative belt drive system moves the fabric along the blind quietly and with less strain on the motor for optimum efficiency. Operated by hand held remote, wall switch or integration into the control system, it can come with a blackout, flyscreen or both. The flyscreen allows for natural air flow for a fresh interior environment.

BENEFITS WITH SKYSCREEN POWERED ROOFBLIND

- Powered operation with 12 V DC and 24 V DC, enables effortless control
- Enjoy natural ventilation when flyscreen in use
- Can be completely concealed into yacht headlining
- Hand held remote or integration into existing control system
- Roller fabric and Flyscreen
- Belt drive system reduces operating noise and improves efficiency

SPECIFICATIONS

POWER	Volt: 12/24 V DC
POWERED CONTROL	Radio remote Direct switch Compatible with various automation systems
FABRIC	Roller Fabric Flyscreen
HARDWARE	White Custom
COVER OPTIONS	Frame Only Full Cover
