

PRODUCT INFO

DOMETIC OCEANAIR SKYSCREEN RECESSED

Designed to sit flush with your yacht's headlining, Skyscreen Roller Recessed is a unique combined flyscreen and blackout blind, tailor made for hatches. Whilst the blackout blind ensures complete darkness on board for an undisturbed night's sleep, the flyscreen allows for an airy, insect free environment.

COMBINATION HATCH BLIND FOR RECESSED APPLICATION

To save space in the interior, the Dometic Oceanair Skyscreen Recessed has been designed to be mounted within the headlining, for a flush finish. The unit is designed with a small lip to sit over the headlining, giving a perfect finish. The blind itself leaves a completely clear aperture when stowed, meaning the functionality of the hatch is not compromised. The flyscreen allows for natural airflow, therefore promoting a fresher interior environment. While the powder coated aluminium cassette is both durable and stylish.

BENEFITS WITH SKYSCREEN RECESSED

- Powder coated aluminium cassette is durable and stylish
- Low profile fitting means it sits flush with the headlining
- Flyscreen and blackout combination promote on-board comfort and a good night's sleep!
- Recoil damper system for larger screens
- Standard sizes available
- Magnetic closure
- PVC Liner / Silicone seal available with radius corners

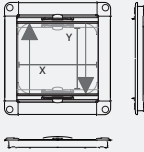

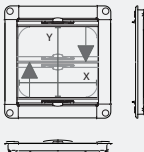

SPECIFICATIONS

MANUAL CONTROLS	Easy Reach Pull-to-Shut Magnetic Closure
FABRIC	Solar Shield White Blackout Skyscreen Flyscreen Fabric Collection Specified
HARDWARE	White (Standard) Beige (Available to Order)
BLIND FORMAT	Full Travel - (Blind / Flyscreen) Meet in the Middle - (Blind / Blind) - (Fly / Fly)
