DISCRETE AND STYLISH BLINDS FOR SMALL WINDOWS

Specifically designed for use in marine conditions, the wipe-clean fabric is water resistant, UV resistant and solar reflective. As well as darkening the yacht interior, the blackout properties are perfect for retaining privacy on board. The Dometic Oceanair Skyshade Portshade also keeps heat out to maintain a comfortable temperature on the hottest of days. Suitable for mounting on curved surfaces, and a top or face fix. The roller fabric rolls up neatly into the aluminium cassette and looks stylish and discrete. Available in white, beige or silver.

BENEFITS WITH PORTSHADE

- Simple installation with just two screws
- Range of hold downs available
- Slim design for confined spaces, top or face fix
- Anti-rattle end caps
- Available in white, beige or silver
- Suitable for curved mounting surfaces
- Available in standard sizes as well as custom design
