

PRODUCT INFO

DOMETIC OCEANAIR SKYSOL CLASSIC

Elegant yacht designs create a range of installation challenges, particularly with shaped forward windows. While they offer great views, angled windows often allow excess light and heat into the saloon – Dometic Skysol is the perfect solution. Skysol Classic can be neatly recessed into the aperture so that it is hidden when stowed. It also works at any angle and can be custom designed to fit any shape!

THE ULTIMATE SOLUTION FOR SHAPED WINDOWS

Ideal for shaped and inclined yacht windows, Skysol Classic pleated blinds are custom designed for a seamless fit. Whatever your needs – from gentle light to complete blackout, warm comfort to cool shade, discrete shading to total privacy – pleated blinds can be designed to create a range of moods. With a bespoke style, the UV resistant and marine-ready pleated blinds have been engineered to reduce maintenance bills by keeping excessive heat out in warmer climates, and retaining warmth in colder environments.

BENEFITS WITH SKYSOL CLASSIC

- Retains heat in colder climates or blocks excessive heat in hot climates
- Powered operation available with 12 V DC or 24 V DC. Hand held remote or integration into the control system
- Low profile head rail for discrete look
- Available with white, beige, black or grey hardware to suit yacht interior
- Range of 20mm pleated fabrics in sheer, privacy and blackout types.
- 16 shapes suitable for any window type
- Suitable for inclines of any angle
