COMBINATION BLACKOUT AND PRIVACY PLEATED BLIND

This elegant custom-built pleated blind, combines a privacy fabric with a blackout option. Developed for slimmer yacht window recesses, Skysol Day/Night accommodates two pleated blinds in one elegant, compact design. Merging a classic pleated fabric with a blackout honeycomb is a popular mix. The translucent fabric provides optimum daytime privacy and light diffusion for soft lighting. When combined with the blackout fabric, privacy and ideal conditions for an undisturbed night's sleep are achieved. Alternatively, Dometic Oceanair Skysol Day/Night can be used to feature two contrasting fabrics within the same window for style choice. Available with powered operation for effortless control and convenience (24 V DC or mains).
