AWNING FIT GUIDE FOR PANEL VANS

An easy way to find the matching product

This fit guide makes it easy for you to find out which Dometic awning fits which panel van model. You can also see which adapter is the right one for the application at hand.

We have also created an awning fit guide the most common caravan and motorhome models. Please refer to page 10 ff. of this brochure!

AWNING FIT GUIDE FOR CARAVANS & MOTORHOMES

How to read the fit guide

Major caravan and motorhome brands are broken down into models. For each model, the correct fitting awning is marked with an “X”. The size of the matching awning to be used depends on the vehicle model number.

A corresponding adapter number is also provided for the given vehicle model. By referencing the adapter number against the “Adapter List”, the correct SKU can be chosen that matches that awning size and/or preference for small sets or full-length adapters.
