# DOMETIC OCEANAIR SKYSOL TRACK LARGE

The Dometic Skysol Track Large provides overhead shading from direct sunlight, while seamlessly complementing the interior of your yacht. Available with a range of pleated fabric options, Skysol Track Large benefits from an innovative cording system, which leaves the aperture completely clear when stowed. Stay cool and shaded in your saloon space with this stylish roof blind from Dometic.

# BIGGER AND BRIGHTER SPACES CALL FOR SHADING INNOVATION

Today's sophisticated yacht designs are breaking away from small, cramped spaces - moving to brighter, airy designs, formulated to maximize space and comfort on board. Dometic provides the ideal solution for yachts kitted out with large overhead glazing, curved to maximize interior living space. These beauties are great to look at, but provide their own challenges in the form of excess light and heat, when you're trying to kick back and relax. The Dometic Skysol Track Large is just the fix! Lightweight and robust, this sophisticated pleated shade is perfect for providing much needed shelter on a sunny day, so you can enjoy your lunch in the shade.

## Benefits with Skysol Track Large

- Lightweight, ideal for roof application
- Robust track technology suitable for tight radius curves
- Discrete cording with no visible guidewires
- Wide range of honeycomb fabrics available in sheer, privacy or blackout
- Day/Night option available
