## Twinboost RV Gas/ electric combo heaters for cabin air and hot water

EXCLUSIVE UPGRADE EARLY OFFERS

This compact gas/ electric heater has two separate heating chambers, one for cabin air and one for warm water. The unique dual-chamber design allows superior performance, as air and water are heated directly and independently of each other. No need to heat the cabin just to get warm water. Enjoy an impressive warm water performance in summer, or an ample 7800 W capacity to get your cabin warm on a chilly day.

Claim your Upgrade Early discount and save up to 300 € when you purchase from a participating dealer.
